

The image shows a close-up, top-down view of a granite surface. The texture is highly detailed, featuring a complex pattern of small, irregularly shaped mineral grains. The color palette is diverse, ranging from light beige and off-white to dark charcoal, black, and brown. There are also some subtle reddish-brown and yellowish tones scattered throughout, creating a rich, multi-colored appearance. The overall effect is one of natural, rugged beauty.

## Silvestre GT

### Descripción / Description

Roca de color gris claro, de grano medio, compacta y de fractura irregular. Muestra ciertas variaciones en la uniformidad de su coloración, que varía del crema al blanco.

Light gray rock, medium size grained, compact and with irregular fracture. The material shows some variation in the uniformity of its color, which varies from cream to white.

### Acabados / Finishes

Pulido, bruto, apomazado, abujardado, granallado y envejecido.

Polished, rough, honed, bushhammered, sandblasted and riverwashed.

### Formatos / Formats

Tabla y losa.

Slabs and tiles.

### Aplicaciones / Applications

Interiores y exteriores. Especialmente indicado para encimeras de cocina y baño.

Interiors and exteriors. Especially suitable for kitchen and bathroom countertops.

Características Features	Valor Declarado Declared value
Densidad aparente (Kg/m <sup>3</sup> ) Apparent density (Kg/m <sup>3</sup> )	2630
Resistencia mecánica a la flexión (MPa) Mechanical flexural strength (MPa)	13,4
Resistencia a la compresión (MPa) Compression resistance (MPa)	116
Absorción de agua a presión atmosférica (%) Water absorption by atmospheric pressure (%)	0,3
Resistencia al desgaste (mm) Wear resistance (mm)	12,4
Resistencia a la heladicidad (%) Decreasing of flexural strength after frost (%)	6,5
